1989- 1992. As top key consultant of Broadway & Seymour, we were the top world consultants on the IBM high speed check sorting systems, then the famous IBM DataTrade system that was the worlds first computer independent software system that transmitted any data (mostly banking) from any hardware based computer at PC, midrange, to Mainframe level using only ONE major source code repository that was written in 100% generic cross compilable C language. We also worked at Dupont on their factory automation systems.

1993-1994 SunGard Trust Systems Birmingham Georgia. Our small teams created and deployed the most expensive Portfolio management investment and tracking system at that time. Managing billions of USD/Euros through IBJ, Integrity bank, and of course all the huge customer bases of IBM and other banking consolidators like Carnage Mellon.

1995-1996 AT&T (Bellsouth) We were the core consultant teams who designed AT&T's replacement construction Managment supply chain system of OSPCM. In less than 1 year we were fully operational after designing their new system from ground zero.

1996-1997 AT&T (Bellsouth.com) Long Distance. Our top consultant teams were the original designers of their very first long distance billing system we designed from ground zero. We were operationally in less than 1 year as our work dealt with millions of call detail records and the wholesale billing to sub vendors and interconnections with all other phone companies.

1998-2004 [bellsouth.com](http://bellsouth.com) As top consultant, we were the lead consultant architects of the prime mainframe to web portal Bellsouth billing and product/ service procurement site managing over 70 mainframe services for 24x7 service availability. We had the highest usage rate of any world corporation including Google, Amazon, IBM or any others. We had the lowest failure rates because our prime focus was on sustainable tracking of all software modifications and predictive analysis software systems to prevent major computer malfunctions and shutdowns.

2005-2007. Datatrade INC that services almost all Toyota and other major brand auto showrooms.

2008-2011. Is the most incredible verifiable years when we were asked to partnership with the top Home/business highest end electronic automated system vendor in Atlanta GA.
